INTRODUCING HMO BLUE SELECT

GREAT COVERAGE, EVEN GREATER SAVINGS.

This health plan is a limited-provider network plan, and includes a limited-provider network called HMO Blue Select. It provides access to a network that is smaller than the Blue Cross Blue Shield of Massachusetts HMO Blue provider network. **Under this plan, members have access to network benefits from only the providers in the HMO Blue Select network.** For help in finding which providers are included in the HMO Blue Select network, check the most current provider directory for your health plan option or visit the online provider search tool at bluecrossma.com/findadoctor and choose "HMO Blue Select."

HOW DOES IT WORK?

HMO Blue Select works like a traditional HMO, but with a smaller set of network providers that deliver savings directly to you.

We've done the legwork of choosing cost-effective providers for you, so you don't have to worry about the different costs between different doctors and hospitals. The result is a network that includes local lower-cost doctors, facilities, and specialty hospitals while offering greater savings and comprehensive coverage.

Blue Select Facts:

- We created the Blue Select network to help you avoid high-cost providers and hospitals simply by using network providers and facilities.
- Like other HMO plans, you're required to select a Primary Care Provider (PCP) and get referrals to see specialists.
- HMO Blue Select members can access nationwide Emergency Care and Urgent Care, at no additional cost.
